

AMENDMENTS TO THE TITLE

Please amend the title such that it now reads:

MINIMALLY SEAMED ~~MINIMAL SEEMED~~ FITTED GARMENT

AMENDMENTS TO THE SPECIFICATION

Please amend the first complete paragraph on page 4, lines 4-7, such that it now reads:

One type of garment that is improved by panel and seam reduction is a wetsuit. Wetsuits having reduced panel numbers and seam length will generally keep a surfer warmer and more comfortable and flexible than existing wetsuits. Reduced ~~seem~~ seam length will reduce water entry into the suit and the reduction in water entry increases surfer warmth.
